About Me

Hello, I am Alan, a 13 year old boy from India in Year 9. I reside in the U.A.E in Abu Dhabi and study at Belvedere British School nestled in Mussafah. My passions range from the soaring heights of basketball to the grounded pleasures of cricket and gaming. Through the utilization of the Snap and the power of AI, I have crafted a wondrous game that recognizes poses. This enchanting experience has been a delight to conjure, and my heart swells with pride at its conception. This Clevered journey has been entrancing and has enriched my knowledge by an amount that only my brain knows.

Acknowledgements

With boundless gratitude and reverence, I extend my deepest thanks to my noble mentor, Ms. Mani. Her wisdom and guidance shone like a beacon, illuminating my journey through this internship. Under her tutelage, the mysteries of the future unfurled, and my mind transcended to new heights. The knowledge of AI and coding, that once lay dormant, now blossomed into a garden of enchantment. I had wandered through coding classes before, but none had ever captured my heart and mind as Clevered did. I really look forward to the next classes that Ms Mani and Clevered has in store

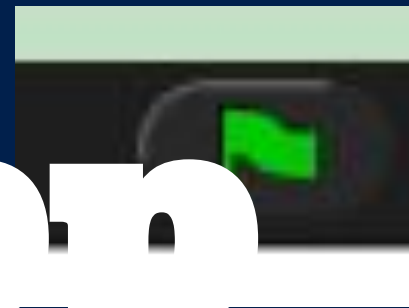

About My Internship

With Clevered

The magical journey I undertook with Clevered during my internship has left an indelible mark on my soul. From the very first class, I was entranced by the enchanting possibilities of AI, and this wonder carried on until the very end. My mind was enriched with knowledge, and my spirit was uplifted by the sheer joy of discovery. This experience has empowered me to understand the power of AI and what it holds for the future.

How to use the

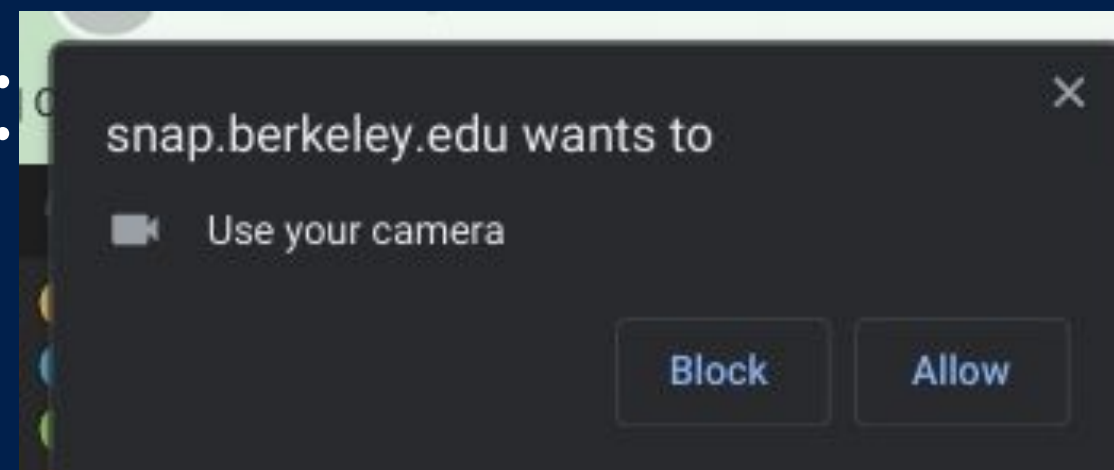

To start off, press the green flag.

App

The game should then start after a quick intro(Ignore Class 3 and Class 4)

The page will then ask:

Click allow and, if the camera does not show above the robots face, press refresh. This is due to it only recently having recieved your permission to use camera and you need to reload to set the permission

Bombs will then start falling and you should be careful since you only have 5 HP, Enjoy.
